CLEANING INFORMATION

Celtic

C: Crypton® Cleaning – Crypton fabrics are available in various fiber types, and all Crypton fabrics can be cleaned with soap and water. The ability to use bleach as a cleaner without damaging the fabric is fiber- and dye-dependent. Cryptons with solution-dyed (acrylic, nylon, olefin) fibers and all polyester Crypton selections can be cleaned safely with bleach, 1:10 ratio = 10% bleach, 90% water solution is recommended and thorough rinsing is required. For the best cleaning solution, use CRYPTON UPHOLSTERY CLEANER, available from Mayer Fabrics.

Kismet, Portal, Twister

WS: Water/Solvent Cleaner – Spot clean, with a mild solvent, an upholstery shampoo, or the foam from a mild detergent. When using a solvent or dry cleaning product, follow instructions carefully and clean only in a well-ventilated room. Avoid any product that contains carbon tetrachloride or other toxic materials. With either method, pretest a small area before proceeding.

Quattro

S: Solvent – Spot clean using a mild water-free solvent or dry cleaning product. Clean only in a well-ventilated room and avoid any product containing carbon tetrachloride or other toxic materials. Pretest a small area before proceeding.

Prompt cleaning is always recommended.

For detailed care and cleaning information for each pattern, please refer to the MCE website or contact customer service.
